The Board of Equalization.

The State Board of Equalization has completed the main part of its labors and has turned its books over to its clerks.

In 41 counties no change is made by the board in the assessment, as returned by the assessors.

Floyd county has not been heard from.

The board was in session twenty-three days. The total increase in the State assessment, resulting from the work of the board, is \$2,000,000. The average per cent. of increase or decrease this year was much below that of previous years.

Next Thursday night, at the Opera House, Hon. Henry Watterson, editor of the Courier-Journal, will deliver his popular lecture, "Money and Morals." Everybody is the city knows the brilliant journalist, either personally or by reputation, and it is unnecessary for us to say anything of him. All who hear him will be delighted.

Our young friend, John L. Griffith, returned from Louisville yesterday. While there he secured the local agency for the Courier-Journal. It is John's intention to open a regular news depot in a few days.

Dr. Hickman was summoned by a messenger last Sunday to the bedside of his daughter, Mrs. James Thompson, at the residence of Mr. C. T. Mason, in the Beverly neighborhood. Mrs. Thompson's condition was reported so critical that Dr. Hickman thought it best to call in the aid of another physician.

CREAM OF NEWS.

Off for the South.

An agent from Birmingham, Ala., was in the city the latter part of the past week getting hands to go south and work on some railroad. He hired about sixty, a number of whom left Sunday.

Promoted Again.

The many friends of Mr. H. Frazier late a resident of this city, will be glad to learn that he has again been promoted. On the 14th of last month he was made Superintendent of the Huntington and Cincinnati Division of the Chesapeake & Ohio Railway. Mr. Frazier is both competent and worthy, and we congratulate him on his advancement in the railway service.

Troublesome Gypsies.

A large band of roving gypsies have been encamped in Sharp's field just south of the city for some days. Last Thursday Mike Riley, Sam Lee, Tom Jeffrey, Jno. Brier and Paul Stanley filled themselves full of "John Barleycorn" and proceeded to knock down and drag out each other at a lively rate. The police were notified and appearing upon the scene arrested the whole party. Each was fined \$7.50 except Riley, who was allowed to go free. They promptly paid their fines and were released.

A New Bank at Elkton.

Mr. J. S. Forey, of Forbes & Bro., went up to Elkton last Wednesday, and Mr. W. A. Long, of the same firm, went yesterday to consult with the gentlemen who are to start a new banking house at that place.

Messrs. Forbes have done a great deal of building for the citizens of Elkton and vicinity, all of which has been done in the most satisfactory manner. We learn that the necessary amount of stock has already been taken in the new institution and that a suitable building will soon be erected. Dick Downey paroled.

The Commissioners of the Sinking Fund on last Wednesday granted paroles to nine more convicts under the Dickerson law passed in 1888. This law permits five per cent. of the convicts to be released on parole, but they may be returned at any time if it becomes known that they are not conducting themselves properly. The total number paroled so far is seventy-seven, the best and most deserving prisoners being invariably selected for clemency. One of this last lot was Dick Downey, col., sent from this county in March, 1875, for life for murder. The Governor at the same time paroled Alex. Scott, col., sent from Scott county for one year for false swearing.

Can Obtain Relief.

As will be seen in an article published in to-day's paper, the Legislature has made an appropriation of \$300,000 for the relief of the sufferers by the cyclone on the 27th of March. There are a large number of people in this part of the State whose residences and out buildings were more or less injured by that terrible visitation who no doubt stand in much need of aid, and would gladly welcome any relief that might be available under the act of the Legislature. Almost every day we hear of people whose property was destroyed by the cyclone, and thus far we have heard of no steps being taken for their relief. If parties who need assistance will put themselves in communication with the disbursers of the fund they will no doubt be materially assisted.

Dr. Clardy's Answer.

Messrs. West, Coleman, McGaughey, King, and others.

Gentlemen:—Referring to your kindly mention of myself as a suitable person to represent the County of Christian in the Constitutional Convention. I beg, after tendering thanks for your good opinion, to say in reply, that I have never been a candidate for any office in my life. But have been content to do what I could for my county and State in a private capacity, especially for its great agricultural interests. This, however, is an opportunity which may come only once in a life time, and one may be excused for entertaining a landable ambition to represent a great county like Christian in such a convention. Without setting up any special claims for myself I refer the matter to the arbitration of my fellow citizens of this good county, only expressing my willingness to serve them to the very best of my ability should they decide that I am the proper person to make the canvass for this high and responsible position.

J. D. Clardy.

Newstead, April 5, 1890.

Mr. A. W. Pyle has bought Mr. N. G. Brasher's interest in the furniture establishment of Renshaw & Brasher and the firm name is now Pyle & Renshaw. Mr. Pyle is an experienced head in the furniture and undertakers business and the new firm will no doubt do a good business. Mr. Brasher will, we understand, engage in other business in the city at once.

The "Tank Koe" lectures at the Methodist church have been well attended and are pronounced by all who have heard them to be very instructive. The lecturer is very entertaining and throws much light on the life and customs of the people of the Celestial Empire. His hundreds of curiosities brought from that land are an interesting feature of the lecture course, which began last Friday night. An evening when one was taken to China when quite young and who is so well qualified to speak of that strange people will never be regretted.

Mr. Jno. F. Clardy, whose loss from the cyclone was estimated at \$3,000, says his building and fence can probably be put back for about \$800. We are glad to know that his losses were so much less than reported.

Mr. A. A. Metz advertises for this week a number of unparalleled bargains in the dry goods line. His special bargain sale will continue throughout the week and a glance at his prices will be enough to convince you that you can save money by calling on him.

In this issue appears an advertisement of the two celebrated horses, Bonnie Hambletonian and Gordon, No. 3127. These fine animals can now be seen at the Driving Park. Mr. P. H. McNamey will take great pleasure in showing them. For pedigrees, descriptions, etc., see "ad."

Mr. M. B. King has been appointed a justice of the peace in the Union School House district to succeed W. H. Everett, deceased. The appointment is for the unexpired term of five months. A better appointment could not have been made and the people of the district will do themselves credit to elect Mr. King for the full term in August.

The revival at the Christian church, which lasted nearly four weeks, closed Thursday night last. There were sixty-eight additions to the church as a result of the meeting. Elder Lucas made a fine impression on the people of this city and made many warm and lasting friends during his stay. There were large congregations in attendance throughout the meeting.

To afford the citizens of Hopkinsville and vicinity an opportunity of visiting the Art Exhibition at Nashville at reasonable cost, the Louisville & Nashville railroad will sell excursion tickets April 10th, 1890, limited to date of sale, at one fare for the round trip. Excursion tickets will also be sold under same conditions from stations as far south as Trenton.

The stock of goods lost by Metcalf Bros., at Bellevue, involved \$9,000, and the building was worth \$3,000. Their loss of \$12,000 was insured against for \$5,000, but the probabilities are that the companies will refuse to pay the loss. In that event the whole matter would turn on the legal liability of the companies which is a question involved in much doubt.

Now that spring has opened every man and boy wants a new suit. Of course nothing but "the latest" is wanted, and where to go to get it is the question. Pye, Dicken & Wall's is the place. Now is the time to call on them, for their new stock of clothing and gents' furnishing goods has just come in. They can please the most fastidious, for their stock was never more complete; and as one of the firm spends a great deal of his time in the cities, they have the advantage of making close purchases and never fail to give the public the advantage of them. We have no hesitancy in recommending this firm to the public as one that gives the best in the market for lowest prices.

Quarterly court meets next Monday. The docket contains about one hundred appearances.

The peach trees are in bloom and the prospects are good for a fair crop of this and other fruits.

Forbes & Bro. have bought the property opposite the residence of Mrs. J. O. Ellis, on Clay street, known as the Coleman place, and will soon build thereon a number of handsome cottages. If we only had a number of such enterprising citizens Hopkinsville would boom the year round.

Mr. Geo. E. Fox, who opened a produce house in this city four weeks ago yesterday, has done a large business from the start. Exclusive of his trade in poultry and hides he has bought and shipped 5,000 dozen eggs.

Mr. W. S. Davidson, who has taken local charge of the business, tells us that it is constantly increasing. Mr. Davidson is still in the transfer business and will give it his usual prompt attention.

There is a real pleasure in visiting the handsome and orderly stores of J. H. Anderson & Co., who are prepared to clothe the gentlemen and boys and shoe all the people of Christian county. Mr. Anderson spent several weeks in New York making his selections of goods and we must say that he excelled himself, for never have we looked at a better display of goods in both houses than that which is now open and ready for the inspection of the public. This is one of the foremost firms in the State and we take pleasure in commending it to the patronage of our readers.

As the time draws nearer to harvest the farmers naturally look around to see where and from whom they can buy their machinery and what make to buy. It will be seen from an advertisement in this issue that Mr. W. B. Mason is agent for this county for the Walter A. Wood reaper which has taken a number of prizes and which leads all others, standing without an equal, as claimed by many. Mr. Mason also handles Russell & Co.'s steam threshers and traction engines and road carts. Parties desiring to purchase would do well to call on the gentleman at J. F. Pyle's, corner 10th and Main streets.

The Standard.

"I regard Hood's Sarsaparilla as having passed above the grade of what are commonly called patent or proprietary medicines," said a well known physician recently. "It is fully entitled to be considered a standard medicine, and has won this position by its undoubted merit and by the many remarkable cures it has effected. For an alternative and tonic it has never been equalled."
